SS

STANDBY SERVICE RATE SCHEDULE SS

“Standby Service” refers to electric energy and capacity supplied by OUC to supplement and/or replace energy or capacity ordinarily generated by the Customer’s own generation equipment during periods of scheduled maintenance or unscheduled outages. Both firm and non-firm Standby Service is offered by OUC through this tariff as specified below.

Availability:

Available to any point of delivery in the OUC service territory and to any Customer who is or would otherwise be taking electricity service through standard tariffs offered by OUC.

Applicability:

Standby Service is applicable to residential and non-residential Customers where all or part of the Customer’s electrical requirements is supplied by a generation source, other than OUC, which is located on the Customer’s premises. Customer class will remain consistent with the “Otherwise Applicable Rate Schedule”.

Service Agreement Requirement:

Customers wishing to connect their facilities to on-site generation must execute a Standby Service Agreement (SSA) with OUC no less than sixty(60) days prior to the date on which that on-site generation will first be operated to produce any electricity. The execution of a SSA does not supercede any pre-existing service agreement executed by the Customer with OUC.

Character of Service:

Alternating Current, 60 cycle, single or three-phase, at the Utility’s standard available voltages.

Metering Requirements:

Depending on the services provided, and the configuration of the Customer and OUC interconnection, the following types of meters may be required as part of receiving standby service.

System Usage Meter: The meter(s) located at the Point of Delivery between the OUC electric system and the Customer’s electric system that measure the amount of electricity that the Customer receives from and through the OUC electric system in each billing interval. The billing interval is defined as the time interval over which energy or/and demand is integrated and recorded under the Applicable Service Classification.

On-Site Generator (OSG) Meter: OUC shall also furnish and install one or more interval meter(s) for the purpose of measuring the output of each and all on-site generation facilities connected to OUC’s electric system, regardless of whether such generators are operated in parallel with OUC’s generation or are isolated for stand-alone operation with standby service provided by OUC. The Customer’s OSG Meter(s) will be synchronized or totalized with the measurements recorded on the same basis as the Customer’s System Usage Meter(s) and the Customer’s Credit Meter(s) (if any).

GENERAL SERVICE DEMAND CURTAILABLE RIDER

Availability:

To customers receiving service under rate schedules **GSD-SEC** or **GSD-PRI** and where the measured monthly kW demand is 500 kW or more for twelve consecutive billing periods ending with the current billing period and the customer agrees to curtail 200 kW or more of electric use upon request of OUC and meet the special provisions of this schedule.

Conditions:

Electric service, at a minimum, is curtailable during any time period that electric power and energy from OUC's available generation, transmission and distribution resources are required to maintain service to OUC's firm power customers. Curtailment times are set forth in special provision No. 3 of this Rate Schedule. OUC will not make off system purchases during curtailment periods to maintain service to curtailable loads. Conditions of service are more fully defined under Special Provisions of this Rate Schedule.

Monthly Rate:

Other than as stated below, the otherwise applicable rate schedule for electric service will apply.

Customer Charge \$140.00

Curtable Demand Credit \$2.85 per kW

Curtable Demand Credit:

The curtable demand credit shall apply to the difference, if any, between the current billing demand and the contracted non-curtable demand determined in accordance with special provision No. 2 of this rate.

Minimum Bill:

The minimum bill as defined by the applicable rate schedule less the curtable demand credit if any.

Special Provisions:

1. As used in this Rate Schedule the term "Period of Requested Curtailment" shall mean a period for which OUC has requested curtailment. The number of requests may not exceed more than one in a 24 hour period or more than 350 total hours in twelve billing periods. A single period of requested curtailment may extend to 8 hours.
2. Under the provisions of this rate, OUC will require a Curtable Service Agreement with the Customers. The initial Non-Curtable Demand shall be specified in the Agreement and shall be based on specifications for power requirements supplied to OUC by the Customer. If, after commencement of service, the customer's load increases, the non-curtable demand can be increased, upon request of the customer, as long as the amount being curtailed is equal to or greater than the contracted curtable load. If after commencement of service, a lower demand is established during a period of requested curtailment, the Non-Curtable Demand will be reduced to the lower level in future billing periods upon request of the Customer.

Continued On Sheet No. 5.801

GSD-C

Continued From Sheet No. 5.800

3. **As an essential requirement for receiving the Curtailable Demand Credit provided under this Rate Schedule, a Customer shall be strictly responsible for the curtailment of his power requirements to no more than his Non-Curtailable Demand upon each request of OUC. OUC will have the right to test the customer's ability to curtail as contracted. OUC will specify "This Is A Test". Test curtailment periods will not exceed 90 minutes from initial curtailment request. Test requests will occur once a quarter. If a test is requested and the customer is unable to curtail as contracted, the penalty described in Special Provision No. 5 will apply.**
4. **A Customer will be deemed to have complied with his curtailment responsibility if the maximum 15-minute kW demand established during each period of requested curtailment does not exceed his Non-Curtailable Demand and he has reached that level within 30 minutes of receiving the request.**
5. **If the maximum 15-minute kW demand established during any period of requested curtailment exceeds the Customer's Non-Curtailable Demand, the Customer will be billed for 125% of the Curtailable Demand Credit attributable to the amount of such excess demand in each billing period from the current month to the most recent prior billing period in which curtailment was requested, not to exceed a total of twelve billing periods.**
6. **All other provisions of the otherwise applicable rate schedule will apply to customers served under this schedule.**

Notwithstanding the foregoing, the annual adjustment to rates as set forth in Exhibit 1 shall not require an amendment to this Agreement provided such annual rate adjustment does not exceed three percent (3%) over the prior year's rate, exclusive of fuel charges.
- 5.4 Termination: The CUSTOMER may opt to terminate the Agreement at the end of the initial or subsequent Terms by providing to OUC at least sixty (60) days advance written notice. OUC may terminate this Agreement if at any time during the Term a final court decision is issued, an Internal Revenue Service ruling is issued, or a change in the applicable statutes or regulations occurs, any of which in the reasonable opinion of OUC's general counsel, results in the continued existence of this Agreement having a material adverse effect on OUC's ability to issue tax exempt bonds. Any such termination shall be made by 30 days' prior written notice from OUC to CUSTOMER. The CUSTOMER will be responsible for the cost incurred by OUC to remove the Lighting Equipment. Appendix A
Interconnection Requirements For All
Renewable Generation Systems Up to 2 MW

A. Definitions

1. **“Customer-owned renewable generation system” (RGS) means an electric generating system located on a customer’s premise that is primarily intended to offset part or all of the customer’s electricity requirements with renewable energy. The term “customer-owned renewable generation” does not preclude the customer of record from contracting for the purchase, lease, operation, or maintenance of an on-site renewable generation system with a third-party under terms and conditions that do not include the retail purchase of electricity from the third-party.**
 - a. **Tier 1 is a system with a rating of 10 kW or less.**
 - b. **Tier 2 is a system with a rating of greater than 10 kW and less than or equal to 100 kW.**
 - c. **Tier 3 is a system with a rating of greater than 100 kW and less than or equal to 2 MW.**
2. **“Renewable energy”, as defined in Section 377.803, Florida Statutes, means electrical, mechanical, or thermal energy produced from a method that uses one or more of the following fuels or energy sources: hydrogen, biomass, solar energy, geothermal energy, wind energy, ocean energy, waste heat, or hydroelectric power.**
3. Photovoltaic (PV) system is a solar electric generator. The array rating is under standard operating conditions (SOC) of 1000 watts/m² solar irradiance, nominal operating cell temperature, air mass 1.5, and ASTM standard solar spectrum.
4. Inverter, also referred to as a power conditioner, is a dc to ac device that converts PV energy to ac energy for utility interconnection. The inverter contains many control functions, such as voltage and frequency monitoring and protection against islanding.
5. **“Gross Power Rating” (GPR) means the total manufacturer’s AC nameplate generating capacity of an on-site customer-owned renewable generating system that will be interconnected to and operate in parallel with the utility’s distribution facilities. For inverter-based systems, the AC nameplate generating capacity shall be calculated by multiplying the total installed DC nameplate generating capacity by .85 in order to account for losses during the conversion from DC to AC.**

B. Standards and Codes

1. Inverters, PV Modules and Panels
 - a. Inverter(s) must be listed and in compliance with Underwriters Laboratories (UL) Subject 1741, Standard for Static Inverters and Charge Controllers for Use in Photovoltaic Systems. Utility-interactive inverters that pass the tests of the UL 1741 standard will be, by definition, “non-islanding” inverters and will comply with the IEEE 1547-2003 interconnection standard.
 - b. **Multiple inverter units. For multiple inverter units, verification that the photovoltaic system ceases to energize within 0.16 seconds (per IEEE 1547-2003), upon loss of sensed voltage, is required. This is verified with on-site testing.**

Continued On Sheet No. 6.502

Continued From Sheet No. 6.501

- c. PV modules and panels must be listed and be in compliance with Underwriters Laboratories (UL) Standard 1703, Standard for Safety: Flat-Plate Photovoltaic Modules and Panels.
 - d. PV modules must be in compliance with IEEE Standard 1262-1995, IEEE Recommended Practice for Qualification of Photovoltaic (PV) Modules (or, equivalently, IEC 61215).
 2. System Installation. **Customer certifies that the RGS installed shall be in compliance with the following standards:**
 - a. **IEEE-1547 (2003) Standard for Interconnecting Distributed Resources with Electric Power Systems**
 - b. **IEEE-1547.1 (2005) Standard Conformance Test Procedures for Equipment Interconnecting Distributed Resources with Electric Power Systems**
 - c. **UL-1741 (2005) Inverters, Converters, Controllers and Interconnection System Equipment for use with Distributed Energy Resources**
 - d. **2005 National Electric Code, all relevant articles (or subsequent revisions) and local building codes**
 3. **GPR**
 - a. **The GPR shall not exceed 90% of the Customer's utility distribution service rating at the Customer's location. If the GPR does exceed that 90% limit, the Customer shall be responsible to pay the cost of upgrades for that distribution service to accommodate the GPR capacity and ensure the 90% threshold is not breached.**
 - b. **It is the Customer's responsibility to notify OUC of any change to the GPR by submitting a new Interconnection Application and Compliance Form specifying the modifications at least 30 days prior to making the modifications.**
 4. OUC Inspection and Approval.
 - a. **Customer shall have the installed RGS inspected and approved by the appropriate local code authorities having jurisdiction. OUC reserves the right to require the Customer to provide proof of this inspection and approval.**
 - b. Prior to operation, OUC reserves the right to inspect the RGS installation to ensure compliance with the standards and codes noted in the previous sections. If OUC chooses to exercise this option, it agrees to inspect and, if the system is in compliance, provide written approval of the interconnection (using the Interconnection **Application and Compliance Form**) within ten working days following the request for inspection and approval. Parallel operation of the **RGS** with the grid shall not begin without the approval of OUC. The customer must notify OUC of any modifications at least 30 days prior to making the modifications.
 5. **Islanding. The Customer shall not energize OUC's system when it is de-energized. The Customer shall cease to energize OUC's system during a faulted condition on OUC's system. The Customer shall cease to energize OUC's system prior to the automatic or non-automatic reclosing of OUC's protective device(s). There shall be no intentional islanding, as described in IEEE 1547, between the Customer's and OUC's systems.**

Continued on Sheet No. 6.503

Continued From Sheet No. 6.502

6. Extreme Conditions. OUC reserves the right to refuse to accept electric power from the PV system under extreme conditions as described below. If OUC chooses to exercise this option, which may involve physically disconnecting from the PV system, it agrees to notify the Customer when such conditions exist or are anticipated, and to reconnect when the adverse conditions no longer exist. Examples of conditions that may lead to disconnection include:
 - a. OUC system emergencies and/or maintenance requirements,
 - b. Hazardous conditions existing on the **RGS** or its protective equipment,
 - c. Adverse effects of the **RGS** operation on other OUC customers, or
 - d. Failure of the **RGS** complying with regulations, rules, orders or decisions of any government or regulatory authority having jurisdiction over the generating equipment or operation.
7. External Disconnect Switch.
 - a. **For Tier 1 RGS OUC recommends, but does not require, an isolation device (manual disconnect switch). However, without an isolation device, (should there be a need to isolate the RGS) OUC will remove the meter, resulting in loss of utility distribution service.**
 - b. **For Tier 2 and Tier 3 RGS, OUC reserves the right to require an isolation device per IEEE 1547-2003. The isolation device shall be a manual disconnect switch of the visible load break type that is both visible and accessible by OUC personnel. The isolation device shall be located separate from, but adjacent to, the meter base.**
8. Testing of Protective Relays. OUC reserves the right to review periodic test reports as required per IEEE 1547-2003.
9. Insurance.
 - a. **Tier 1 RGS, OUC recommends that the Customer maintain an appropriate level of general liability insurance for personal injury and property damage.**
 - b. **Tier 2 RGS. The Customer shall maintain general liability insurance for personal injury and property damage for not less than one million dollars (\$1,000,000). The Customer shall provide initial proof of insurance or sufficient guarantee and proof of self-insurance, evidencing the Customer's insurance as a covered addition to the Customer's insured property. For residential customers with systems between 10 kW and 20 kW, OUC recommends that the customer maintains an appropriate level of general liability insurance for personal injury and property damage.**
 - c. **Tier 3 RGS. The Customer shall maintain general liability insurance for personal injury and property damage for not less than two million dollars (\$2,000,000). The Customer shall provide initial proof of insurance or sufficient guarantee and proof of self-insurance, evidencing the Customer's insurance as a covered addition to the Customer's insured property.**

Continued On Sheet No. 6.504

Continued From Sheet No. 6.503

10. **RGS Equipment Protection.** It is the responsibility of the Customer to protect its generating equipment, inverters, protection devices, and other system components from damage by the normal conditions and operations that occur on the part of OUC in delivering and restoring system power. **The customer is also responsible for ensuring that its RGS equipment is inspected, maintained and tested regularly in accordance with the manufacturer's instructions to ensure that it is operating correctly and safely.**
11. **Isolation Transformer.** **RGS** greater than 20 kW must be interconnected to OUC's system through an isolation transformer (other than **RGS** owner, no other OUC customer is to be served from this transformer).
12. **Transfer Trip and Reclose Blocking.** **For Tier 2 and Tier 3 RGS** where the aggregate generation capacity exceeds 15% of the peak load on any automatic reclosing device, OUC requires transfer trip and reclose-blocking on automatic reclosing devices.
13. **System Study.** **RGS** greater than **100 kW** may require a system study. Additional protective devices may be required, as specified in the OUC "Guide for Producer-Owned Generating Interconnections".

SECTION 4: THE PARTIES MUTUALLY AGREE:

- 4.1 OUC, while exercising reasonable diligence at all times to furnish Lighting Service hereunder, does not guarantee continuous lighting and will not be liable for any damages for any interruption, deficiency or failure of electric service, and reserves the right to interrupt electric service at any time for necessary repairs to lines or equipment. Further, the parties acknowledge that malfunctions (including burned out bulbs) and acts beyond OUC's reasonable control do occur from time to time, which may result in the failure of illumination of said lights and/ or Lighting Equipment provided hereunder. Although OUC performs routine maintenance and periodic inspections of said Lighting Equipment installed hereunder, it is the responsibility of the CUSTOMER to promptly notify OUC of any inoperative or malfunctioning lights or Lighting Equipment, regardless of whether such condition or malfunction was discovered or should have been discovered by OUC during the performance of such maintenance or inspection. Subject to such notification and its compliance with the provisions of Florida Statutes § 768.1382(2) & (3) (2007), as may be amended from time to time, OUC is not liable and may not be held liable for any civil damages for personal injury, wrongful death, or property damage affected or caused by the malfunction or failure of illumination of such lights or Lighting Services provided hereunder, regardless of whether the malfunction or failure of illumination is alleged or demonstrated to have contributed in any manner to the personal injury, wrongful death, or property damage.

- 4.2 OUC installation of Lighting Equipment shall be made only when, in the judgment of OUC, the location and the type of the Lighting Equipment are, and will continue to be, easily and economically accessible to OUC equipment and personnel for both construction and maintenance. OUC shall not be in default for its failure to perform its obligations under this Agreement to the extent resulting from a Force Majeure Event. OUC shall be entitled to an extension of time for the performance of Lighting Service sufficient to overcome the effects of any such Force Majeure Event.
- 4.3 Except as specifically permitted under subsection 4.6 below, modification of the Lighting Equipment provided by OUC under this Agreement may only be made through the execution of an additional Agreement between OUC and CUSTOMER or by written amendment to this Agreement, delineating the modifications to be accomplished and (if applicable) setting out any adjustments to the terms and conditions necessitated by the modification. Notwithstanding anything to the contrary contained herein, CUSTOMER shall not possess or have any direction or control over the physical operation of the Lighting Equipment and the possession of the Lighting Equipment and the direction and control of the physical operation of Lighting Equipment shall be vested exclusively with OUC.
- 4.4 OUC shall, at the request of the CUSTOMER, relocate the Lighting Equipment if provided sufficient rights-of-way or easements to do so and the requested relocation does not negatively affect the ability of OUC to provide Lighting Service. The CUSTOMER shall be responsible for the payment of all costs associated with any such CUSTOMER requested relocation of OUC Lighting Equipment.
- 4.5 OUC may, at any time and without the need for CUSTOMER's permission, substitute any luminaire/lamp installed hereunder with another luminaire/lamp which shall be of at least equal illuminating capacity and efficiency.
- 4.6 OUC shall retain all title right and ownership interest in the Lighting Equipment and shall be responsible to repair or replace (and assumes all risk of loss) for any damage to any Lighting Equipment provided pursuant to this Agreement; provided, however that notwithstanding the foregoing, OUC shall not be responsible for and the CUSTOMER agrees to take responsibility for, the cost incurred to repair or replace any Lighting Equipment that has been damaged by CUSTOMER, its employees, agents, invitees or licensees or any other third party in which case OUC shall not be required to make such repair or replacement prior to payment by the CUSTOMER for damage. Responsibility to repair or replace damage to any CUSTOMER installed Lighting Equipment transfers to OUC upon inspection and acceptance of the fully installed and energized Lighting Equipment by OUC's Lighting Inspector.
- 4.7 Should the CUSTOMER fail to pay any bills due and rendered pursuant to this Agreement or otherwise fail to perform its obligations contained in this Agreement, said obligations being material and going to the essence of this Agreement, OUC may cease to supply the Lighting Service until the CUSTOMER has paid the bills due and rendered or has fully cured such other breach of this Agreement. Any failure of OUC to exercise its rights hereunder shall not be deemed a waiver of such rights. It is understood, however, that such discontinuance of the supplying of the Lighting Service shall not constitute a breach of this Agreement by OUC, nor shall it relieve the CUSTOMER of the obligation to perform any of the terms and conditions of this Agreement.

Continued From Sheet No. 6.702

- 4.8 CUSTOMER shall be entitled to assign its rights under this Agreement to the CUSTOMER's successor in title to the Property upon which the Lighting Equipment are installed with the written consent of OUC, which shall not be unreasonably withheld. No assignment shall relieve the CUSTOMER from its obligations hereunder until such obligations have been assumed by the Purchaser in writing and agreed to by OUC.
- 4.9 This Agreement supersedes all previous Agreements or representations, either written, oral or otherwise between the CUSTOMER and OUC, with respect to the Lighting Service referenced herein and along with OUC's electric service tariffs, constitutes the entire Agreement between the parties. This Agreement does not create any rights or provide any remedies to third parties or create any additional duty, obligation or undertakings by OUC to third parties.
- 4.10 CUSTOMER recognizes and agrees that it is ultimately responsible for the payment of all sales, municipal, use, excise, gross receipts and other taxes that may apply to, or be imposed upon, the transaction that is the subject of this Agreement, if any, irrespective of when such taxes may be charged or assessed against OUC. Any non-collection or non-assessment of such taxes by OUC contemporaneously with the occurrence of the transaction shall not waive, release or diminish CUSTOMER's ultimate responsibility for the payment thereof, irrespective of whether such taxes are later charged or assessed by OUC or the applicable taxing authority(ies).
- 4.11 This Agreement shall inure to the benefit of, and be binding upon the successors and permitted assigns of the CUSTOMER and OUC.
- 4.12 OUC will exercise reasonable efforts to furnish Lighting Service hereunder in a manner which will allow continuous operation of the Lighting Equipment, but OUC does not warrant the continuous operation of the Lighting Equipment and shall not be liable for any damages for any interruption, deficiency or failure of Lighting Equipment. Notwithstanding any other provision of this Agreement, in no event shall OUC have any liability to CUSTOMER under this Agreement, whether based in contract, in tort (including negligence and strict liability) or otherwise, for: (a) any special, incidental, indirect, exemplary or consequential damages; (b) damages with respect to costs of capital, costs of replacement power, loss of profits or revenues, or loss of use of plant or equipment, irrespective of whether such damages may be categorized as direct, special, consequential, incidental, indirect, exemplary or otherwise.
- 4.13 CUSTOMER shall locate and advise OUC, its agents, employees, servants or subcontractors, through the provision of an accurate map and other necessary written descriptions, of the exact location of all underground facilities, including, but not limited to: sewage pipes, septic tanks, walls, swimming pools, sprinkler systems, conduits, cables, valves, lines, fuel storage tanks, and storm drainage systems ("Underground Facilities") at the installation site at least two (2) days prior to the commencement of any work by OUC at the installation site. Any and all cost or liability for damage to Underground Facilities by OUC that were not properly identified by the CUSTOMER, as described under this paragraph, shall be paid by the CUSTOMER. Except for those claims, losses and damages arising out of OUC's sole negligence, the CUSTOMER agrees to defend, at its own expense and indemnify OUC, its respective commissioner, officers, agents, employees, servants, contractors for any and all claims, losses and damages, including attorney's fees and costs, which arise or are alleged to have arisen out of furnishing, design, installation, operation, maintenance or removal of the Lighting Equipment.

SECTION 5: TERM, EFFECTIVE DATE, INSTALLATION DATE, AMENDMENT, TERMINATION AND BILLING

- 5.1 The initial term of this Agreement (the “Term”) shall be for twenty (20) years, and thereafter shall automatically renew for successive terms of ten (10) years hence, unless terminated by written notice of such intention from either party to the other at least sixty (60) days prior to expiration date of the initial term or subsequent terms. The initial term shall begin upon the due date of the first monthly invoice (bill) delivered to CUSTOMER for installed lighting or the capital investment portion of the Monthly Lighting Service Charge as set forth in section 5.3 hereinbelow, which ever occurs first, and shall terminate at the end Two Hundred Forty (240) consecutive Billing Cycles thereafter, unless extended or otherwise modified pursuant to the provisions herein. In the event that a phased installation of Lighting Equipment is to be provided by OUC by means of the Phase Installation Plan described in Exhibit 1, each development phase completed shall have its own Term (which shall commence and terminate as set forth above in this paragraph) and Installation Date under this Agreement.
- 5.2 The effective date of this Agreement shall be the date of execution by the CUSTOMER or OUC, whichever is later.
- 5.3 If OUC is ready and able to begin installation of the Lighting Equipment on the Installation Date, and the CUSTOMER is not ready and able to accept installation of the Lighting Equipment, OUC shall bill CUSTOMER monthly for the capital investment portion of the Monthly Lighting Service Charge, until such time as the CUSTOMER is able to commence accepting installation as set forth herein. CUSTOMER may change the Installation Date by providing OUC written notice of the new Installation Date no later than one hundred (100) days prior to the original Installation Date; however, in no event shall the new Installation Date exceed six (6) months from the original Installation Date. Provided that written notice is received by OUC at least 100 days prior to the original installation date, CUSTOMER shall not be responsible for paying the monthly bill for the capital investment portion of the Lighting Service Charge. Notwithstanding any of the foregoing, the CUSTOMER shall be liable for paying the monthly bill for the capital investment portion of the Monthly Lighting Service Charge if CUSTOMER is not ready and able to accept installation of the Lighting Equipment on the new Installation Date or the date ending six (6) months after the original Installation Date, whichever occurs first. OUC reserves the right to adjust pricing when CUSTOMER changes the original Installation Date.
- 5.4 This Agreement may only be amended in writing and such amendment must be executed with the same degree of formality as this Agreement. Notwithstanding the foregoing, the annual adjustment to rates as set forth in Exhibit 1 shall not require an amendment to this Agreement provided such annual rate adjustment does not exceed three percent (3%) over the prior year’s rate.

Continued on Sheet No. 6.705

Continued From Sheet No. 6.704

- 5.5 The CUSTOMER may opt to terminate the Agreement at the end of the initial or subsequent Terms by providing to OUC at least sixty (60) days advance written notice. In the event that CUSTOMER terminates this agreement before the end of the initial or subsequent Terms, CUSTOMER shall be liable to OUC for the capital investment portion of the Monthly Lighting Service Charge set forth in Exhibit 1 for the remainder of the Term and all direct and consequential damages incurred by OUC as a result of such early termination, including the cost incurred by OUC to remove the Lighting Equipment. In addition to the foregoing, OUC shall have the right to pursue all other remedies or damages available at law or in equity. OUC may terminate this Agreement if at any time during the Term a final court decision is issued, an Internal Revenue Service ruling is issued, or a change in the applicable statutes or regulations occurs, any of which in the reasonable opinion of OUC's general counsel, results in the continued existence of this Agreement having a material adverse effect on OUC's ability to issue tax exempt bonds. Any such termination shall be made by 30 days' prior written notice from OUC to CUSTOMER. The CUSTOMER will be responsible for the cost incurred by OUC to remove the Lighting Equipment. OUC shall issue a bill to the CUSTOMER for removal costs once removal has been completed.
- 5.6 Billing shall commence upon the energization of the first lights or as set forth in section 5.3 above.

This Agreement does not create any rights or provide any remedies to third parties or create any additional duty, obligation or undertakings by OUC to third parties.
- 4.10 CUSTOMER recognizes and agrees that it is ultimately responsible for the payment of all sales, municipal, use, excise, gross receipts and other taxes that may apply to, or be imposed upon, the transaction that is the subject of this Agreement, if any, irrespective of when such taxes may be charged or assessed against OUC. Any non-collection or non-assessment of such taxes by OUC contemporaneously with the occurrence of the transaction shall not waive, release or diminish CUSTOMER's ultimate responsibility for the payment thereof, irrespective of whether such taxes are later charged or assessed by OUC or the applicable taxing authority(ies).
- 4.11 This Agreement shall inure to the benefit of, and be binding upon the successors and permitted assigns of the CUSTOMER and OUC.
- 4.12 OUC will exercise reasonable efforts to furnish Lighting Service hereunder in a manner which will allow continuous operation of the Lighting Equipment, but OUC does not warrant the continuous operation of the Lighting Equipment and shall not be liable for any damages for any interruption, deficiency or failure of Lighting Equipment. Notwithstanding any other provision of this Agreement, in no event shall OUC have any liability to CUSTOMER under this Agreement, whether based in contract, in tort (including negligence and strict liability) or otherwise, for: (a) any special, incidental, indirect, exemplary or consequential damages; (b) damages with respect to costs of capital, costs of replacement power, loss of profits or revenues, or loss of use of plant or equipment, irrespective of whether such damages may be categorized as direct, special, consequential, incidental, indirect, exemplary or otherwise.

- 4.13 CUSTOMER shall locate and advise OUC, its agents, employees, servants or subcontractors, through the provision of an accurate map and other necessary written descriptions, of the exact location of all underground facilities, including, but not limited to: sewage pipes, septic tanks, walls, swimming pools, sprinkler systems, conduits, cables, valves, lines, fuel storage tanks, and storm drainage systems (“Underground Facilities”) at the installation site at least two (2) days prior to the commencement of any work by OUC at the installation site. Any and all cost or liability for damage to Underground Facilities by OUC that were not properly identified by the CUSTOMER, as described under this paragraph, shall be paid by the CUSTOMER. Except for those claims, losses and damages arising out of OUC’s sole negligence, the CUSTOMER agrees to defend, at its own expense and indemnify OUC, its respective commissioner, officers, agents, employees, servants, contractors for any and all claims, losses and damages, including attorney’s fees and costs, which arise or are alleged to have arisen out of furnishing, design, installation, operation, maintenance or removal of the Lighting Equipment.

SECTION 5: TERM, EFFECTIVE DATE, INSTALLATION DATE, AMENDMENT, TERMINATION AND BILLING

- 5.1 The initial term of this Agreement (the “Term”) shall be for twenty five (25) years, and thereafter shall automatically renew for successive terms of ten (10) years hence, unless terminated by written notice of such intention from either party to the other at least sixty (60) days prior to expiration date of the initial term or subsequent terms. The initial term shall begin upon the due date of the first monthly invoice (bill) delivered to CUSTOMER for installed lighting or the capital investment portion of the Monthly Lighting Service Charge as set forth in section 5.3 herein below, whichever occurs first, and shall terminate at the end Three Hundred (300) consecutive Billing Cycles thereafter, unless extended or otherwise modified pursuant to the provisions herein. In the event that a phased installation of Lighting Equipment is to be provided by OUC by means of the Phase Installation Plan described in Exhibit 1, each development phase completed shall have its own Term (which shall commence and terminate as set forth above in this paragraph) and Installation Date under this Agreement.
- 5.2 The effective date of this Agreement shall be the date of execution by the CUSTOMER or OUC, whichever is later.

Continued on Sheet No. 6.805

Continued From Sheet No. 6.804

- 5.3 If OUC is ready and able to begin installation of the Lighting Equipment on the Installation Date, and the CUSTOMER is not ready and able to accept installation of the Lighting Equipment, OUC shall bill CUSTOMER monthly for the capital investment portion of the Monthly Lighting Service Charge, until such time as the CUSTOMER is able to commence accepting installation as set forth herein. CUSTOMER may change the Installation Date by providing OUC written notice of the new Installation Date no later than one hundred (100) days prior to the original Installation Date; however, in no event shall the new Installation Date exceed six (6) months from the original Installation Date. Provided that written notice is received by OUC at least 100 days prior to the original installation date, CUSTOMER shall not be responsible for paying the monthly bill for the capital investment portion of the Lighting Service Charge. Notwithstanding any of the foregoing, the CUSTOMER shall be liable for paying the monthly bill for the capital investment portion of the Monthly Lighting Service Charge if CUSTOMER is not ready and able to accept installation of the Lighting Equipment on the new Installation Date or the date ending six (6) months after the original Installation Date, whichever occurs first. OUC reserves the right to adjust pricing when CUSTOMER changes the original Installation Date.
- 5.4 This Agreement may only be amended in writing and such amendment must be executed with the same degree of formality as this Agreement. Notwithstanding the foregoing, the annual adjustment to rates as set forth in Exhibit 1 shall not require an amendment to this Agreement provided such annual rate adjustment does not exceed three percent (3%) over the prior year's rate.
- 5.5 The CUSTOMER may opt to terminate the Agreement at the end of the initial or subsequent Terms by providing to OUC at least sixty (60) days advance written notice. In the event that CUSTOMER terminates this agreement before the end of the initial or subsequent Terms, CUSTOMER shall be liable to OUC for the capital investment portion of the Monthly Lighting Service Charge set forth in Exhibit 1 for the remainder of the Term and all direct and consequential damages incurred by OUC as a result of such early termination, including the cost incurred by OUC to remove the Lighting Equipment. In addition to the foregoing, OUC shall have the right to pursue all other remedies or damages available at law or in equity. OUC may terminate this Agreement if at any time during the Term a final court decision is issued, an Internal Revenue Service ruling is issued, or a change in the applicable statutes or regulations occurs, any of which in the reasonable opinion of OUC's general counsel, results in the continued existence of this Agreement having a material adverse effect on OUC's ability to issue tax exempt bonds. Any such termination shall be made by 30 days' prior written notice from OUC to CUSTOMER. The CUSTOMER will be responsible for the cost incurred by OUC to remove the Lighting Equipment. OUC shall issue a bill to the CUSTOMER for removal costs once removal has been completed.
- 5.6 Billing shall commence upon the energization of the first lights or as set forth in section 5.3 above.
