Budget Billing

*A Supplier's Guide to Doing
Business with OUC*

OUC 
The *Reliable One*®

Budget Billing

- Eliminates the seasonal ups and downs of utility bills
- Keeps your bill at a fixed monthly dollar amount
- Assists you in planning and balancing your monthly budgets

It's Simple And Predictable. It Changes Only Once A Year.

Your monthly Budget Billing amount will be based on your average monthly bill for the past 12 months, including electric and/or water charges and other charges such as sewage, garbage and taxes. An additional 8% will be added to the amount to prevent the budget variance from growing too large. Your Budget Billing amount will be fixed for 12 months.

Here's How Budget Billing Works:

Each month your electric/water meters will be read and the amount of energy and water used will be reflected on your bill. Your bill will show the following:

- Current Charges (actual bill amount based on consumption used)
- Budget Charges (fixed Budget Billing amount)
- Budget Difference (variance between your actual bill and your Budget Billing amount. This budget difference may be a credit or debit amount.)

YOU Are Eligible.

Budget Billing is yet another FREE service we provide to all our residential and commercial customers. Families or individuals on fixed incomes will find Budget Billing very helpful in managing their budgets.

Enroll Today!

Just fill out the form below, detach it and drop it in the mail or call OUC Customer Service at 407.957.7373. Remember: You can choose to discontinue your involvement in Budget Billing at any time.
