

## Make Your Home More Energy Efficient...

And OUC Will Help Pay The Bill

Boosting your home's energy efficiency can do more than just save you money on your monthly utility bill. Qualified homeowners can even apply for a bill credit or financing from OUC through our Home Energy Efficiency Programs.

Whether you're looking to make a small change — with weather stripping or window tinting— or you're looking to invest in a new AC system or attic insulation, OUC can help pay for some of the improvement costs.

When you're ready to start, OUC will be there to help guide you through the process. If you have questions or need more information on OUC's rebate programs, call **407.434.2256**.

For a customized look at how your household uses energy each month — and for quick, easy tips for saving money — visit [www.ouc.com](http://www.ouc.com) for a free Online Home Energy Audit. Based on information you provide, the Online Home Energy Audit will generate a personalized report of your energy usage and show you how you can lower your utility bills.

### NOW ON DVD . . . THE OUC HOME ENERGY SURVEY

Looking for practical solutions to reduce your utility bill? Get the facts about the most common home energy and water myths — and more — just by watching our Energy and Water Conservation DVD. We'll walk you through a “do-it-yourself” energy and water guide for your home — in English or Spanish — that will help you save money and keep your home comfortable at the same time.

## Energy Efficiency Rebates

Saving energy around your home doesn't always take a big investment. There are several ways you can make your home more energy-wise without emptying the bank.

**With our Energy Efficiency Rebate Program, we can even help pay for some of the improvements:**

**Energy Star® Heat Pump Water Heater**— 100% of cost up to \$650, must have Energy Star® qualification.

**Energy Star® Clothes Washing Machine**— \$50, must have Energy Star® qualification.

**Window Film and/or Solar Screen**— \$1.00 per sq.ft. for east-, west- and south-facing windows only and must have a shading coefficient of 0.5 or less.

**Energy Star® Windows**— \$2.00 per sq. ft., must have Energy Star® qualification for Florida.

**Floor Insulation**— \$0.07/sq.ft., must have final R-Value of at least R-11 on uninsulated above ground floor.

**Block Wall Insulation**— \$0.66/sq.ft. when adding additional R-10 to an uninsulated block wall.

**Ceiling Insulation Upgrade**— \$0.14/sq.ft. when upgrading to R-30 where existing is R-11 or less, or \$0.05/sq.ft. when upgrading to R-30 where existing is greater than R-11.

**Cool/Reflective Roof**— \$0.14/sq.ft., must have an initial Solar Reflectance value of 0.7 or greater and have an Energy Star® qualification.

**Solar Thermal Water Heater**— up to \$1,000 at point-of-sale <sup>1,2,3</sup>

**Solar Photovoltaic**— \$0.05 per kWh produced <sup>1</sup>

**Water Cistern for Irrigation**<sup>4</sup>— \$0.10/gallon up to \$1,000

<sup>1</sup> Residential customers participating in OUC's Solar Programs may qualify for a low- or no-interest loan through the Orlando Federal Credit Union.

<sup>2</sup> Customers must use a solar preferred contractor to qualify for a rebate.

<sup>3</sup> Customers with a loan will get a \$550 rebate.

<sup>4</sup> Rebate available to Orlando customers only.

## Efficient Electric Heat Pump System Rebate Program

You can also save money by replacing your old heating and cooling system with an energy-efficient electric heat pump system. In fact, if you choose a heat pump with a Seasonal Energy Efficiency Ratio (SEER) of 14 or higher, you could reduce your electric consumption significantly.

Other ways to save money with heating and cooling costs are to make sure your system has the proper sizing and insulation and that you repair or replace any leaky ducts.

But, that's not all. In addition to what you'll save on your electric bill, OUC will contribute a rebate for your energy-conscious effort.

**Duct Repair/Replacement**— 100% of cost, up to \$160

**A/C Proper Sizing with R-30 Insulation**—

- \$40 if processed alone
- \$85 if processed with Heat Pump, Ceiling Insulation or Duct Repair rebate

### HEAT PUMP REBATES

A/C SIZE (TONS)	A/C SEER UPGRADED TO:				
	14	15	16	17	18+
1	\$20	\$80	\$130	\$175	\$215
1.5	\$55	\$145	\$220	\$209	\$350
2	\$90	\$205	\$310	\$400	\$480
2.5	\$120	\$270	\$400	\$515	\$615
3	\$155	\$335	\$490	\$625	\$745
3.5	\$190	\$395	\$580	\$735	\$880
4	\$225	\$460	\$670	\$850	\$1,010
4.5	\$260	\$525	\$755	\$960	\$1,145
5+	\$295	\$590	\$845	\$1,075	\$1,275

*\*Must submit AHRI certificate with rebate form.*

## Efficiency Delivered from OUC

Efficiency Delivered tailors energy and water efficiency upgrades in your home around your budget and needs. An energy auditor from OUC—The *Reliable One* will determine which home improvements would save you the most money and then OUC will arrange for a licensed, approved contractor to do the work. You receive professional installation from a trusted source and save instantly with rebates from OUC.

You only pay for the cost of the home improvements, with the option to spread payments over an interest-free 12 month period on your utility bill. See chart below for contribution levels and qualifications.

Household Income	OUC Contribution
Less than \$40,000	85% ( <i>not to exceed \$2,000</i> )
\$40,001-\$60,000	50% ( <i>not to exceed \$2,000</i> )
Greater than \$60,000	Rebates only

**If you have questions or need more information on OUC's Home Energy Efficiency Programs, call 407.434.2256.**
