

New Home Rebate Program

Money-saving rebates for energy-smart choices.

OUC is rewarding new home buyers who go green from the ground up.

When you install Energy Star® heat pump water heaters or other energy-efficient upgrades during construction, OUC will put money back on your bottomline in the form of a credit on your OUC bill. Depending on the type, size and quantity of the measures selected, the resulting rebate could mean you might not have to pay a utility bill the first few months in your new home.

How it Works

- You select the efficiency upgrades you want included in your home.
- The builder installs the measures and the property owner submits the online rebate application to OUC for processing.
- OUC calculates the rebate and puts the credit directly on your monthly statement.

Rebate	Rate of Rebate
<p>Ceiling Insulation Upgrade The attic is the easiest place to add insulation; it can help lower your energy costs and keep you comfortable through the seasons.</p>	<p>\$.03 per sq. ft. <i>when processed with Heat Pump or ENERGY STAR® Heat Pump Water Heater</i></p>
<p>Heat Pump Upgrading to a more efficient unit can lower your electric bill. Annual energy savings for a 15 Seasonal Energy Efficiency Rating (SEER) or greater unit could be up to 30 percent when compared to a 12 SEER unit.</p>	<p>up to \$1,630</p>
<p>Solar Thermal Water Heater The average system takes up just 40 square feet of roof space and should save between 50 to 85 percent of the hot water portion of the monthly electric bill.</p>	<p>\$900</p>
<p>Energy Star® Heat Pump Water Heater Utilizing super-efficient technology, an Energy Star® Heat Pump Water Heater that can cut water heating costs by more than half.</p>	<p>100% of cost up to \$500</p>

Want to see how much money OUC Rebates could save you?

New home buyers who take advantage of OUC Rebates for energy-efficient upgrades to their home can save a significant amount of money. Based on a 2,000 sq. ft. new home, the chart below shows potential totals for each rebate available for new homes through OUC.

Rebate	Rate of Rebate	Square Footage	Total
Ceiling Insulation Upgrade	\$0.03 per sq. ft.	2,000	\$60
Heat Pump	up to \$1,630	N/A	\$1,630
Energy Star® Heat Pump Water Heater	100% of cost up to \$500	N/A	\$500
Possible Rebate Total			\$2,190

The figures provided are only an estimate. Individual results may vary.
