| *Collector/System Brand:           | *Collector Size (sq ft) :             | Tank Size (gal): |
| *Installed Cost Before Rebate(\$): |                                       |                  |

#### Program Participation:

- Solar thermal system must be located on an OUC electric customer’s residence and must offset an electric water heater.
- Customer must use a Florida licensed contractor for the installation of a solar thermal system.
- All customers may qualify for a rebate of \$900.
- Applications must be submitted to [green@ouc.com](mailto:green@ouc.com) within 6 months after system installation.
- A copy of the original customer invoice must be attached to the application.
- An OUC verification of the solar system may be conducted prior to rebate approval.
- Rebate will be given as a credit on the customer’s OUC bill.

All areas designated with an \* are required. The application will be automatically returned if incomplete.

<sup>1</sup> All solar systems in the State of Florida are required to be certified by the Florida Solar Energy Center (FSEC)

I understand and agree to the process and procedures outlined in the Residential Solar Thermal Rebate Application.

## OUC Residential Solar Thermal Checklist Non-Point of Sale

- Optional: Contact OUC's Customer Service at 407-423-9018 to request an energy survey. OUC recommends that an energy survey be conducted to ensure your home is operating efficiently prior to the installation of a solar system.
- Solicit quotes and select a contractor to install the solar system. OUC recommends getting at least three quotes from qualified Solar Contractors. To get started, visit [www.ouc.com](http://www.ouc.com) for a list of OUC's Preferred Contractor Network solar contractors.
- Contractor/customer pulls required permits from designated jurisdiction.
- Complete installation of the solar system and permit inspection.
- After permit inspection is complete submit the OUC Solar Thermal Application and proof of purchase of the solar system to OUC's Renewables Department via fax to 407-434-2218 or via email to [green@ouc.com](mailto:green@ouc.com).
- OUC's Renewables Department may call the customer to schedule an appointment for a solar system verification.
- OUC completes the solar system verification.
- OUC processes a one-time credit towards the installation of the solar thermal system on the OUC bill.
