New Online Dashboard Gives You the Power to Save

Imagine being able to monitor your electric consumption every day so you can adjust your habits to conserve resources and save money. Well, now you can with OUC's new online Usage Dashboard! In addition to reviewing your consumption patterns with daily and hourly data, you can set up email alerts to let you know when you've reached a specific threshold determined by you.

To view your Usage Dashboard, simply login to your myOUC Online Profile and click the blue View Usage button under Account Summary. Be sure to set your browser to allow pop-ups so the dashboard can open in a new window.

MEET: GLENN MASSARI, *LINE TECHNICIAN I*

**“ AT ANY TIME, IN ANY WEATHER,
YOU CAN RELY ON ME.”**

Glenn understands Mother Nature is unpredictable. When three hurricanes cut a swath across Central Florida in 2004, he helped OUC crews restore power to thousands of customers. Glenn is passionate about responding quickly and safely—which is why OUC is the No. 1 utility* in the state when it comes to reliability. As your hometown utility, we're committed to the customers and the communities we serve. Learn more at www.ouc.com.

**Based on 2014 data provided to the Florida Public Service Commission.*

BEHIND**
THE RELIABLE ONE

You Have the Power-2-Give

Most of us have the ability and the desire to give at some level. Arts and cultural organizations often solicit funds for a project online so patrons and fans can contribute to its success. Regardless of the amount, the donor's power to give is their power to make a difference.

Power2Give.org is a unique website that gives each of us the opportunity to support specific arts and cultural projects that we are passionate about. And it's easy! Simply browse our site and connect your personal interest to one of our exciting ventures.

Stay Safe This Storm Season

With the summer storm season upon us, Central Floridians have come to expect daily thunderstorms, some of which can be dangerous and damaging. Here are some tips to keep you safe:

- Stay away from downed power lines. If you spot a downed line, call OUC immediately at **407-957-7373**. Always assume that the line is energized and never attempt to touch or move it.
- Never climb a utility pole or tower.
- Look up first and keep any equipment at least 10 feet from power lines.
- Never trim trees near power lines. If you suspect a tree may interfere with a line, report it at **OUC.com** or call **407-957-7373**.
- Make OUC's website and social media channels your go-to places for safety and preparation tips, hurricane guides, restoration information and our live online outage map.

Greater Orlando Heart Walk — September 12

Join the American Heart Association at the Greater Orlando Heart Walk on Saturday, September 12 at UCF. Together, we'll take steps toward a heart-healthy lifestyle while raising funds to fight cardiovascular disease and stroke in our community. The Greater Orlando Heart Walk is one of the largest single-day fundraisers in Central Florida, combining fitness and philanthropy by bringing together corporate sponsors, walk teams, individual walkers, and survivors of heart disease along with stroke and lifestyle-change heroes.

Proceeds from the event will enhance research, education and programs designed to combat heart disease and stroke, the No. 1 and No. 5 killers, respectively, of Americans. By adopting a lifestyle that includes physical activity, individuals can reduce their healthcare costs, increase their productivity and improve their overall longevity and quality of life.

For more information or to join a team, visit **www.GreaterOrlandoHeartWalk.kintera.org**. Please help us fight for those we love!

Life...is why!
