

## Make Your Home More Energy Efficient...

And OUC Will Help Pay The Bill

Boosting your home's energy efficiency can do more than just save you money on your monthly utility bill. Qualified homeowners can even apply for a bill credit or financing from OUC through our Home Energy Efficiency Programs.

Whether you're looking to make a small change—with weather stripping or window tinting—or you're looking to invest in a new AC system or attic insulation, OUC can help pay for some of the improvement costs.

When you're ready to start, OUC will be there to help guide you through the process. If you have questions or need more information on OUC's rebate programs, call **407-423-9018**.

For a customized look at how your household uses energy each month—and for quick, easy tips for saving money—visit [www.ouc.com/energyaudit](http://www.ouc.com/energyaudit) for a free Online Home Energy Audit. Based on information you provide, the Online Home Energy Audit will generate a personalized report of your energy usage and show you how you can lower your utility bills.

## Efficient Electric Heat Pump System Rebate Program

You can also save money by replacing your old heating and cooling system with an energy-efficient electric heat pump system. In fact, if you choose a heat pump with a Seasonal Energy Efficiency Ratio (SEER) of 15 or higher, you could reduce your electric consumption significantly.

Other ways to save money with heating and cooling costs are to make sure your system has the proper sizing and insulation and that you repair or replace any leaky ducts.

**But, that's not all.** In addition to what you'll save on your electric bill, OUC will contribute a rebate for your energy-conscious effort.

**Duct System Repair**— 100% of cost, up to \$100

**A/C Proper Sizing with R-30 Insulation**— \$90 if processed with Heat Pump, Ceiling Insulation or Duct Repair rebate

## Energy Efficiency Rebates\*

Saving energy around your home doesn't always take a big investment. There are several ways you can make your home more energy-wise without emptying the bank.

**With our Energy Efficiency Rebate Program, we can even help pay for some of the improvements:**

**Energy Star® Heat Pump Water Heater** 100% of cost up to \$500

**Window Film and/or Solar Screen** \$0.55 per sq.ft.

**Energy Star® Windows** \$1.50 per sq. ft.

**Ceiling Insulation Upgrade** \$0.10/sq.ft.

**Solar Thermal Water Heater** up to \$900

**Water Cistern for Irrigation<sup>1</sup>** \$0.02/gallon up to \$200

\*See requirements and disclaimers at [www.ouc.com/rebates](http://www.ouc.com/rebates)

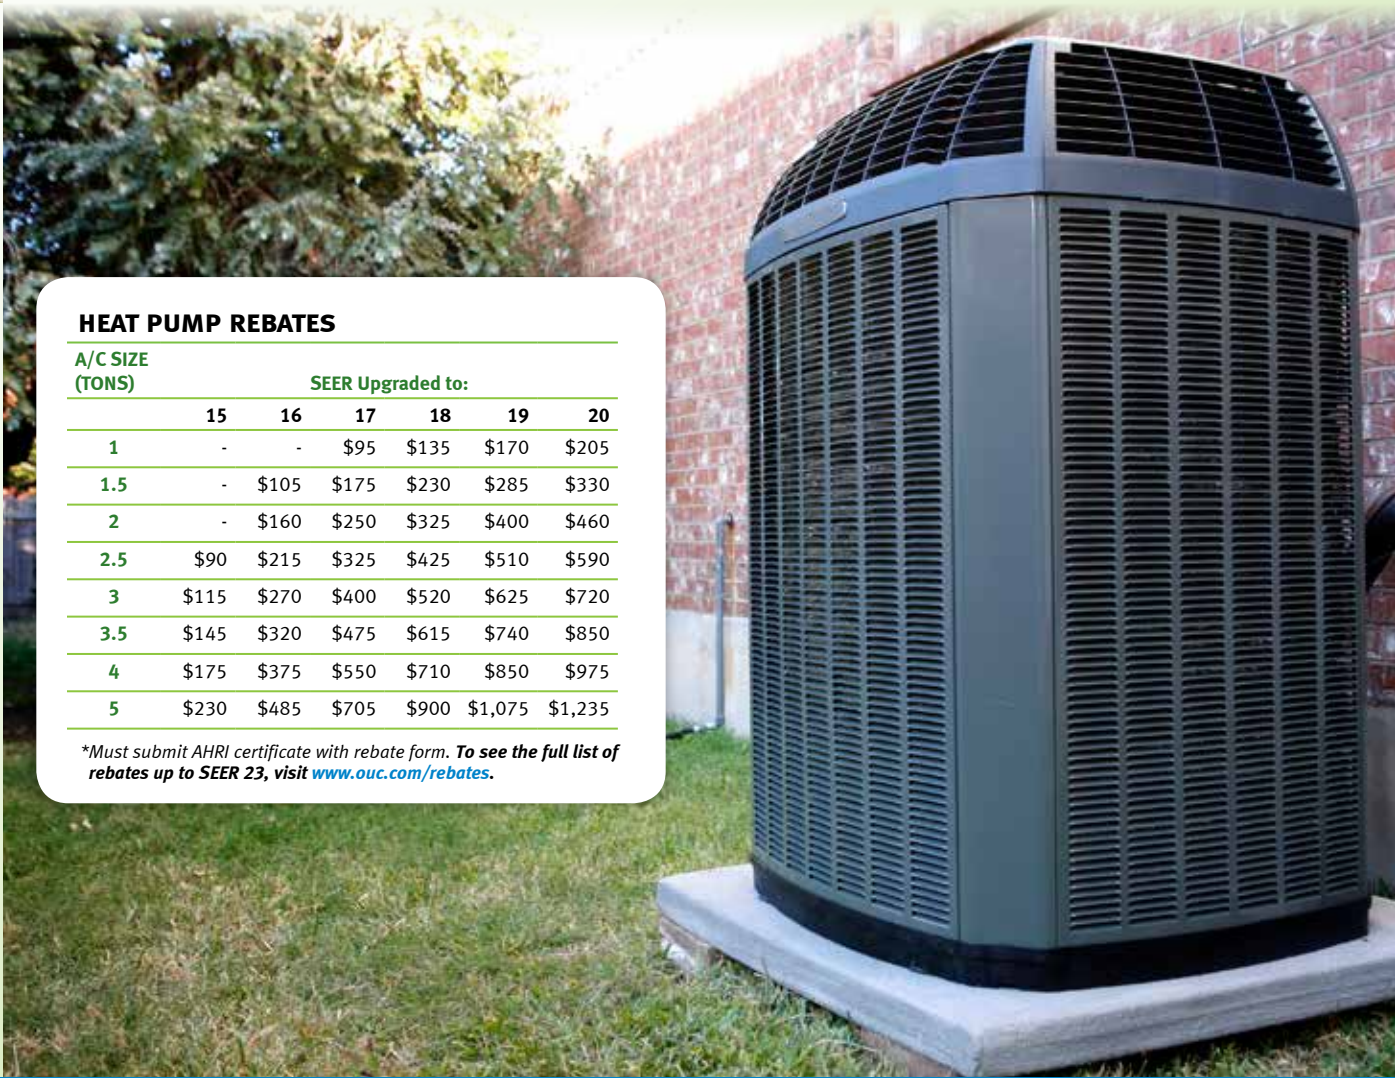

*Rebates are subject to change.*

<sup>1</sup> Rebate available to Orlando customers only.

### HEAT PUMP REBATES

A/C SIZE (TONS)	SEER Upgraded to:					
	15	16	17	18	19	20
1	-	-	\$95	\$135	\$170	\$205
1.5	-	\$105	\$175	\$230	\$285	\$330
2	-	\$160	\$250	\$325	\$400	\$460
2.5	\$90	\$215	\$325	\$425	\$510	\$590
3	\$115	\$270	\$400	\$520	\$625	\$720
3.5	\$145	\$320	\$475	\$615	\$740	\$850
4	\$175	\$375	\$550	\$710	\$850	\$975
5	\$230	\$485	\$705	\$900	\$1,075	\$1,235

\*Must submit AHRI certificate with rebate form. To see the full list of rebates up to SEER 23, visit [www.ouc.com/rebates](http://www.ouc.com/rebates).
