

OUC Commercial Electric Rates

Effective October 1, 2018

Effective October 1, 2018 OUC is reducing its fuel charge by 7.7 percent. The customer and demand charges will be increased. The total overall decrease represents about \$5 million in annual customer savings. Rate information is also available online at www.ouc.com.

Commercial Customer Classes

GSND (Small Commercial): Monthly kW (kilowatt) demand has not equaled or exceeded 50 kW more than two periods out of the 12 most recent billing periods.

Customer Charge	\$12.25/month
Base Charge	6.765 cents/kWh (kilowatt hour)
Fuel Charge	<u>3.349</u> cents/kWh
Total Energy Charge	10.114 cents/kWh

GSND Minimum Bill: Customer Charge

The electric rate schedules and pricing options for the following GSD customer classes are contained inside this notice.

GSD Secondary: Monthly kW demand equals or exceeds 50 kW for three or more periods out of the 12 most recent billing periods.

GSD Primary: Monthly kW demand meets preceding criteria and customer owns and maintains all equipment needed to take service at primary voltage, except metering equipment, and service is metered at primary voltage.

General Service Demand Pricing Options

All GSD customers may elect to be on the Standard Demand Rate Option or Time of Use Rate Option that applies to their specific GSD class.

Standard Demand Rates: Features a fixed monthly customer charge, a fixed per-KW demand charge and a fixed per-KWh energy charge for all consumption in each billing period.

Time of Use Rates: The customer and demand charges are the same as the Standard Demand Rate. However, the energy charge per kWh varies depending on the time and season the electricity is used.

Election Process: The customer may elect to be on the Standard Demand Rate or Time of Use Rate. Customers who do not elect an option will be placed on the Standard Demand Rate. Customers may not change pricing options prior to completing 12 billing periods.

OUC Rate Components

Customer Charge: This fixed monthly charge covers certain basic costs of providing service, including meter reading, billing and maintenance of services and meters.

Base Charge: Reflects all other costs directly associated with providing electric service to customers except fuel and purchased power costs.

Fuel Charge: These charges are designed to recover the costs of fuel and purchased power incurred by OUC to provide electric service.

Terms of Payments: Bills are due and payable upon receipt and become past due on the date indicated on each bill, approximately 18 days after the bill is mailed. Service is subject to being disconnected approximately 19 days after the past due date if the account is still unpaid.

Other Agency Charges, Taxes

Garbage, Sewer Charges: Bills for customers within city limits may show City of Orlando garbage and sewer charges. Bills for customers outside city limits may show Orange County sewer charges.

Local Taxes: The City of Orlando applies a tax to the monthly water and electric charges for customers within the city limits. Orange County applies a Public Service Tax to monthly water and electric charges for customers outside the city limits of Orlando. Either tax applies to all electric charges plus all adjustments except the costs of fuel above 0.638 cents per kWh.

State Gross Receipts Tax: In accordance with Section 203.01 of the Florida Statutes, a gross receipts tax is applicable to electric sales charges and is shown as a separate item on electric bills.

State Sales Tax: General Service (commercial) electric customers are subject to this tax unless a certificate of tax exemption has been filed with OUC.

GSD Minimum Bill: The customer charge plus a demand charge of not less than 25 kW at the applicable demand rate per kW plus the applicable charge for energy used.

GSD Billing Demand: The average maximum 15-minute kW demand measured during the billing period.

GSD Winter Periods: November 1 through March 31.
