

Residential Household Sales Tax Exemption Affidavit

This is to certify that until the undersigned notifies the Orlando Utilities Commission otherwise in writing, all of the electrical services provided by the Orlando Utilities Commission on or after _____ to the following account number(s) are exempt from Florida's Sales taxes for the following reason(s):

- The electric service provided to this account will be used exclusively to service a residential household, and the meter(s) will not serve any commercial or business activities. Commercial or business activities include but are not limited to rental operations that cater primarily to transient guests (hotels, motels, and room rentals), in-home businesses, and/or the performance of any activity that is not residential in nature.

- The electric service provided to this account will be used by a licensed family day care located within a residence and required to pay the gross receipts tax imposed by Chapter 203, F.S.

- The electric service provided to this account will be used exclusively to serve common areas of residential housing complexes, and the meter(s) will not service any commercial or business activities, such as coin-operated laundry machines, vending machines, sewage/lift station equipment, business office, or any activity that is not exclusively residential in nature.

- The electric service provided to this account will be used exclusively to serve a residential model home. The meter(s) will not serve any commercial activity, such as the location of a business or sales office, or be used in any manner that is not strictly residential.

The undersigned understands that if such purchases of electricity do not qualify for the exemption indicated above, the undersigned will be subject to sales and use taxes, interest, and penalties by the Florida Department of Revenue and that when any person shall fraudulently, for the purpose of evading tax, issue to a vendor or to any agent of the State a certificate or statement in writing in which he claims exemption from the sales tax, such person, in addition to being liable for payment of the tax plus a mandatory penalty of 200 percent of the tax, shall be liable for the fine and punishment as provided by law for a conviction of a misdemeanor of the second degree, as provided in s.775.082, s.775.083 or s.775.084, F.S.
